

I have a concern over the possibility of LPFM stations taking over my current FM programming. The expansion of new LPFM stations could take priority over my local FM station that broadcasts a nation wide radio station called KLOVE. KLOVE broadcasts Christian music without commercial interruption 24 hours a day, and is invaluable to me as a Christian, a parent, and a community member. Having this station allows my children and I to listen anytime without fear of inappropriate commercials, songs, or DJ commentary. Even easy listening or country stations cannot offer that promise. If an LPFM station were to replace my KLOVE station, a valuable community service would be lost - there is no other programming in my area that I can confidently allow my kids to listen to with complete freedom. I believe that keeping this national programming available to me through my local FM station is in the public interest. Parents in my community have the choice of allowing our children to listen to the inappropriate and often vulgar programming available locally, or the uplifting, encouraging music, talk, and messages of KLOVE. Please do not allow LPFM stations to usurp regional or national programming like KLOVE.
